25 Oct 1965

Honorable John A. Gronouski
American Ambassador
Department of State
Washington, D. C.

Dear Mr. Ambassador:

As you suggested last Thursday at the end of our briefing in the Office of Research and Reports, CIA, I am sending for your use an annotated list of titles on various aspects of the Polish economy. Most of them are classified reports issued by this Agency. Not included is our current study for the Treasury Department of the Polish balance of payments, which will be sent to Treasury on Monday, and our longer study on the same subject which will be issued as an economic intelligence report later this year.

We are enclosing in addition to several of the listed reports, an informal memorandum on the agricultural situation in Poland and the translation of a Polish article on farm taxes. If you find that a particular line of economic research would be helpful in your new assignment write to me directly and we will make every effort to meet your needs.

Sincerely,

/s/ Bill Morell
